Re: MUR 6604

CELA

Following up on your phone call today  
you asked me to respond to the complaint.  
Not really sure how to respond, because  
I am not even sure what the complaint is?

But, in terms of many of the  
facts as related in the Kenneth Krayeske  
letter, these are some of the corrections:

In Item 5, reference is made  
to me "inviting Andrew Rorabach as a  
guest on my show and then berated him".  
Number one, I never invited him on  
my show. Andrew Rorabach is a sitting  
STATE Senator, his office called my  
producer and requested to come on  
my show. The request came from

14044352783

14044352784

② Senator Korabacki offered state senate office personnel, paid for by the taxpayers made the request and stated they wanted to talk about state senate issues. Had he wanted to talk about his Congressional campaign - then his political, congressional staff would have had to make the request. So, I never invited him, he was on to talk State Senate issues. (as requested by his taxpayer funded, official personnel) and we did the state death penalty, nothing to do with campaign Number Two, they have stated that I gave out his personal cell phone number which I did not.

There are boundless and numerous laws that protect my right of free speech, but it is evident these "complaints" are politically motivated and meant to generate negative publicity.

Thank you
